Poem

A wise old owl sat in an oak,
The more he heard, the less he spoke;
The less he spoke, the more he heard.
Why are'nt we more like that wise old bird

An Exhibition
At Ashprington Village Hall 24/9/86.

1986

Repeat on
-11/7/1999

An offer was made by Devon County Record Office a few years ago to bring deposited material from the office to the parish at a suitable time.

Village Hall

The demolishing of the wooden village Hall in preparation for a more permanent building had delayed any possible progress concerning the offer.

The new Hall was ready for use for the Harvest Festival September 1985 and during the autumn, an effort was made to check the parish boundaries given by a Diocesan survey with the boundary shown on the Tithe Map of 1842. Having borrowed this Tithe map from the Parish Council and traced some of the more interesting aspects of it, such as my own farms of Higher and Lower Shelbrin, the Wick area, the Beacon area, the Village area, I realised that there were probably many others in the parish who would be interested to see it also. Also realising that I hold other things at Shelbrin which are not readily available for others to see, such as the photo album of nearly 200 photos taken in 1942 during the war years of our parish Church; the school register which I hold, copies of the Church Registers from 1711 and others of less importance, the idea developed in the Autumn of 1986 to plan an exhibition

DRO

of Record Office material in conjunction with a showing of our own records.

Two members of the Parish Council were appointed, or strictly, one member, the Chairman, Mr Derek Hooper and the Clerk, Mr John Spencer, together with Mr Alec Hardwick and Mrs Ann Clapp representing the Parochial Church Council helped me to coordinate the preparation.

Tithe map

A special frame was constructed to accomodate the large Tithe map, it being 10ft 6ins high by 7ft 3ins wide, and the map was stapled to two rollers about 3ft 6ins apart with handles so that any desired section of the map could be viewed.

Later 1581 plot found June 1986

A list of the 1580 tithe numbers was prepared and as a 900th anniversary of Domesday Survey a record of the owners of many of these areas was taken.

The Record Office brought stands and show cases which occupied the central area of the Hall and our own material was arranged on either side and at the stage end in appropriate sections. On the field side were details concerning the Parish Council with the Tithe map and Apportionment lists to the left of the stage area.

Along the stage itself was displayed Church and School material, books, records, accounts, photos, the piece of Chert found in the Churchyard and many facts about Church and School.

Flint Place Road

To the right on the car park side was

Bells

a Bells and Ringing section, with the bell model, bell charts, publications etc, next came the Home Guard material, giving considerable information on the activities from 1940 to 1944; then the Mary Rose section, with information on the Carew family, the raising of the vessel recently, with publication pictures etc., and at the adjacent section on History much written material concerning known facts of the parishes past.

A box placed near the entrance asking for contributions to cover expenses Hall Hire etc, contained on opening £100-10, which meant when £19 was taken to cover expenses the £81-10 was for Church Funds.

Many expressions were made that there was far too little time given for a detailed examination and understanding of all the available material and consideration was given to a repeat showing of the local items at some future time.

Some photos of Sputham Farm and of the Ewins family were lent, and an old rate book given by Mr. Warren of Membury Court. A jigsaw puzzle of the Mary Rose made up and backed by linen was also on show from a lady at Seaton.

Mary Rose

Mr. Peter Marker brought and placed on view the parish Clerk "Searle's Diary" which he is in process of copying and hopes to deposit at Record Office on completion.
